FUND PROFILE

Saskatchewan Government Growth Fund V (1997) Ltd. ("SGGF V" or the "Fund") is a government-administered venture capital fund pursuant to the Immigration Regulations, 1978 (Canada), as amended. It was formed to enable immigrant investors to invest in businesses operating in Saskatchewan and facilitate the investors' qualification as Canadian permanent residents under the Immigrant Investor Program.

FINANCIAL HIGHLIGHTS

- The Fund incurred a loss of \$22,000 in 2008. The Fund has an accumulated deficit at December 31, 2008 of \$1.6 million.
- Net revenue for the year, including losses realized on disposal of investments and recognition of the fair value of investments, was \$45,000.
- The principal repayment at maturity of Notes was set in 2003 at \$190,000. Effective March 2005, the payment was increased to \$215,000 with a further increase to \$225,000 in September, 2005. All investors have now received \$225,000. Additional payments will be made when cash becomes available from the liquidation of investments.

MESSAGE TO INVESTORS

The priority of Saskatchewan Government Growth Fund V (1997) Ltd. in 2008 was generating cash to repay principal amounts of Notes.

The Fund incurred a loss of \$22,000 in 2008, compared to net income of \$3,000 in 2007, reflecting the fact that administrative costs and interest on investor Notes slightly exceeded net investment revenue. The accumulated deficit of the Fund is \$1.6 million at December 31, 2008. The accumulated deficit results from losses on disposal of investments, reflecting the relatively higher risk associated with investments in small and medium sized enterprises. In addition, the low interest rate environment of recent years has had a negative effect on returns available from portfolio investments and infrastructure loans.

Payments to Noteholders at maturity of the Notes are established periodically based on forecasts of cash expected to be available from disposal of investments and scheduled maturities of Notes. This ensures that all Noteholders are treated equally. In 2004, the amount paid at maturity was set at \$190,000. During 2005, the payment was increased to \$225,000.

As a result of investment losses, it is unlikely that the Fund will be able to repay the full principal amount of Notes. One investment in the Fund remains to be liquidated, and it is subject to litigation to establish whether another creditor has any right to share in the proceeds of liquidation in the bankruptcy of the investee. If the assumptions underlying current forecasts of cash flows from investments prove to be correct, an additional payment to Noteholders may be possible in 2009. The current forecast projects that the total payment to investors could be in the range of \$230,000 to \$240,000. The cash flow forecast will be reviewed quarterly and available cash will be distributed to investors.

In April 2008, changes were made to the Board of Directors with the appointments of Elizabeth Nash and John Hyshka to replace Rollie Hardy, Lloyd Boutilier, Darrel Cunningham and Harwood Davies. In March 2009, John Hyshka left the Board and Neil Buechler, Dave Farrell, Brent Martian and Mary-Lynn Waschuk were appointed as Directors. We extend our thanks to Messrs. Hardy, Boutilier, Cunningham, Davies and Hyshka for their contributions to the Fund.

In 2009, SGGF V will continue to seek the best liquidation proceeds available in the prevailing circumstances so that an additional payment can be made to investors. As significant new developments occur, this information will be provided to the Noteholders.

INVESTMENT PROFILES

The following are profiles of investments held by SGGF V during 2008, including the principal amount invested at December 31, 2008, and a description of the companies' operations. The date of the initial investment in each company is noted in parentheses.

Master Manufacturing Inc. (June 1999)

\$1,605,066 loans

Master Manufacturing, which was located in Moose Jaw, Saskatchewan, manufactured a broad range of pre-engineered all-steel buildings and building components. In 2003, the Company defaulted on its loan and a trustee in bankruptcy was appointed. The trustee has disposed of the company's assets and the proceeds are held by the trustee pending resolution of a dispute with another creditor with respect to priority.

R & R Leasing (July 2000)

R&R is based in Regina and leases buildings, equipment and vehicles to Saskatchewan Crown Corporations, other government-related entities and private enterprises. The company repaid its loans in 2008.

Background

Saskatchewan Government Growth Fund V (1997) Ltd. ("SGGF V" or the "Fund") is an immigrant investor fund which operates in accordance with the regulations of the federal Immigrant Investor Program (the "IIP"). The Fund began commercial operations in 1998 when it accepted its first subscription deposits. The Fund is financed by subscriptions received from immigrant investors. The objective of the Fund is to invest at least 70% of the proceeds of subscriptions in eligible businesses in Saskatchewan for a five year period as required by the IIP. This allows the immigrant investor to satisfy the investment requirements of the IIP for a Canadian-resident visa.

Investor notes

SGGF V's activities are financed by immigrant investors who have subscribed for unsecured, subordinated promissory notes ("Notes") offered through an Offering Memorandum. The interest rate for a Note is determined at the time the full subscription is received, and remains constant until the maturity of the Note. The Notes are subordinate to all other liabilities of the Fund and repayment is dependent on the proceeds on liquidation of investments and all other available liquidity in excess of other liabilities.

The Notes mature five years from the date of issue. The IIP requires that the maturity date of a Note be extended if, and for so long as, less than 70% of the amount of the Note is invested in the active business operations of eligible businesses in Saskatchewan.

The Fund was closed to new subscription applications on December 31, 1998. In 2003, the Fund required subscribers to fully pay any outstanding subscription amounts, and subscribers who did not do so forfeited their right to participate in the Fund.

At December 31, 2008, investor Notes totalled \$2.8 million, comprised of 110 Notes (2007 – 101 Notes) on which \$225,000 (2007 – \$225,000) has been paid to each investor at the maturity date and in 2007, nine Notes which had not yet matured.

The Fund's cash flow projections indicated that timing differences existed between planned liquidations of investments and scheduled investor repayments as Notes became due. In order to treat all investors equally, the payments on Notes at maturity have been set at \$225,000. The payment of additional amounts on each Note is dependent on the liquidation of an investment in a company that became bankrupt where another creditor has claimed a share of the proceeds of liquidation. Any forecast of when this investment will be liquidated reflects a best judgment based on current information, and involves a number of risks and uncertainties and other factors that may cause actual results to differ materially from the forecast. If the assumptions underlying current forecasts prove to be correct, payment of some additional amounts may be possible in 2009; however, based on current forecasts, it is unlikely that the Fund will be able to repay the full principal amount of the Notes. The current forecast projects that the total payment to investors could be in the range of \$230,000 to \$240,000. The cash flow forecast will be reviewed quarterly and available cash will be distributed to investors.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

Total interest expense on investor Notes in 2008 was \$16,000 (2007 - \$42,000). Interest is paid on each Note until it reaches its maturity date.

Investments

The investment policy of the Fund reflects the requirements imposed by both the IIP and the Offering Memorandum. To meet these requirements, the Fund has established a target initial investment allocation consisting of:

- a maximum of 30% invested in small and medium-sized enterprises ("SMEs") in Saskatchewan;
- 50% invested in loans to support infrastructure projects of the Province of Saskatchewan, and its agencies, municipalities and similar institutions; and,
- the balance invested in cash or liquid debt securities.

As investments are divested over time, the actual portfolio mix changes. Investments in SMEs and loans to support infrastructure qualify as "eligible businesses" for purposes of the IIP.

The following table sets out the investments of the Fund by type at December 31 in each year:

	2008			2007		
	No.	\$ millions	%	No.	\$ millions	%
Other investments						
Small and medium-sized enterprises						
Debt investments	1	1.6	66.7	1	1.6	35.6
Infrastructure loans		-	-	2	1.5	33.3
		1.6	66.7		3.1	68.9
Cash		0.8	33.3		1.4	31.1
		2.4	100.0		4.5	100.0
Adjustment to fair value		(1.2)			(1.2)	
Carrying value		1.2			3.3	

Investment and other income in 2008 totalled \$66,000, compared with \$148,000 in 2007, reflecting a lower base of investments. Realized losses on the disposal of investments together with a decrease in the fair value of investments during the year totalled \$22,000 (2007 - \$23,000). Net revenue in 2008 was \$45,000, compared with \$125,000 in 2007.

Management

The Fund is managed by the Saskatchewan Government Growth Fund Management Corporation ("SGGF MC") under a contract which provides for a management fee not to exceed 3.0% of the net assets of the Fund. SGGF MC has contracted administration and investment advisory services from Crown Capital Partners Inc. ("CCPI"), a private, national investment advisor based in Regina, Saskatchewan, and retained subadvisors to provide investment advisory services. CCPI is paid a monthly fee for its services and will receive a performance fee based on the retained earnings, if any, of the Fund after all investor Notes are repaid in full and all investments have been liquidated. The subadvisors are paid a performance fee based on the performance of the investments managed by each of them.

Administration expense for the Fund totalled \$51,000 in 2008, compared with \$81,000 in 2007. Administration expense represented 2.3% (2007 – 2.2%) of weighted average total assets.

Results of operations

During 2008, the Fund incurred a loss of \$22,000, compared with a net income of \$3,000 in 2007. Investment income on weighted average total assets, before the recognition of fair value and losses realized on disposal, was 3.0% (2007 – 4.0%). Unrealized net losses and net realized losses on disposal were negative 1.0% (2007 – negative 0.6%). Interest expense was 0.7% (2007 – 1.1%). All other expenses were 2.3% (2007 – 2.2%).

At December 31, 2008, the Fund had an accumulated deficit of \$1.6 million compared with a deficit of \$1.5 million at December 31, 2007.

Outlook and risks and uncertainties

The Fund has completed its fundraising and investing phase. The priority of the Fund is to liquidate its remaining investment and distribute the proceeds to investors.

The investment allocation of the Fund which is prescribed by the IIP and Offering Memorandum significantly influences the returns available to the Fund. Investments in SMEs, which initially can represent up to 30% of the Fund's investments, provide an opportunity for higher returns, but also carry a higher risk of losses than other investment types, and a greater challenge to achieving liquidity at the time that Notes mature. On the other hand, the balance of investments which consist of liquid securities and loans to finance infrastructure are relatively low risk, but also provide low returns that reflect the lower risk exposure. Since the Fund was launched in 1999, interest rates in the general economy have decreased significantly, which has created a challenge to the Fund to earn sufficient returns to pay interest on Notes and administration costs.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

The significant risks and uncertainties which affect the Fund relate to market risk, credit risk, capital risk, and liquidity risk. These risk factors are described in note 9 to the financial statements. The Fund manages these risks to the extent possible; however the factors may affect the ability of the Fund to repay its Notes at maturity. The Fund has no sources of funds to finance the repayment of its Notes other than the proceeds received on liquidation of its investments.

Dated as of March 6, 2009.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The President and fund manager of the Saskatchewan Government Growth Fund V (1997) Ltd. are responsible for management of the Fund. The accompanying financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles, and necessarily include amounts which are based on informed judgement and management estimates. Financial data presented elsewhere in this annual report is consistent with that in the financial statements.

Management's responsibility includes ensuring the integrity and objectivity of financial information. Management maintains an appropriate system of internal accounting and administrative controls, policies and procedures to provide reasonable assurance that all transactions are authorized, financial records are complete and accurate, and assets are safeguarded against loss.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting. The Board has established an Audit Committee to review the Fund's accounting policies and financial statements prior to their presentation to the Board for approval. The Audit Committee also reviews the internal controls of the Fund, and meets regularly with the auditors. The Board has reviewed and approved these financial statements.

Deloitte & Touche LLP, the Fund's independent auditors, have examined the financial statements of the Fund. Their responsibility is to conduct an independent and objective audit and to report on the fairness of presentation of the Fund's financial position, results of operations and cash flows as shown in the financial statements. The Auditors' Report outlines the scope of their examination and their opinion.

Alan M. Rowe, C.A.
President

Lori K. Le Drew, C.M.A.

AUDITORS' REPORT

To the Shareholder of Saskatchewan Government Growth Fund V (1997) Ltd.:

We have audited the statement of financial position of Saskatchewan Government Growth Fund V (1997) Ltd. as at December 31, 2008, and the statements of operations and comprehensive income (loss), deficit and accumulated other comprehensive income and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2008 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

**Saskatchewan Government Growth Fund V (1997) Ltd.
Notes to Financial Statements
December 31, 2008**

1. Status of the Corporation

Saskatchewan Government Growth Fund V (1997) Ltd. ("SGGF V" or the "Fund") was incorporated in August 1997 under *The Business Corporations Act* (Saskatchewan) and has been accepted as a government administered venture capital fund under the federal government's Immigrant Investor Program ("IIP"). Under this program, the Fund was established to raise \$35,000,000 through a note offering. Each note is a variable rate (1.50% to 3.50%), unsecured, subordinated debt instrument with a principal amount of \$250,000, repayable in five years provided that 70% of the proceeds are invested in eligible businesses ("Notes") throughout the five year period. The marketing period for the Fund ended on December 31, 1998, and 2003 was the last year in which the Fund accepted the completion of subscription payments.

The Confidential Offering Memorandum ("Memorandum") and the IIP prescribe various conditions which qualify an investment as an eligible business, including a requirement that the business be Saskatchewan based and have assets, including assets of associated companies, of less than \$35 million.

The Government of Canada and the Government of the Province of Saskatchewan offer no guarantees or assurances on the financial performance of the Fund or of a return of an investor's original investment and neither government will be liable for any loss or damages suffered by an investor as a result of an investment in the Notes.

As described above, the Fund's purpose is to issue the Notes and make investments in accordance with the IIP. When the Notes mature, the Fund divests its investments, in due course, as appropriate opportunities arise. The investments are the Fund's only source of revenue. The Fund's activities will cease when all investments have been divested. The proceeds will be applied to the Notes, with residual resources, if any, being distributed to the shareholder.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The following are considered significant:

Financial instruments

All financial instruments are classified as one of: (a) held-to-maturity; (b) loans and receivables; (c) held-for-trading; (d) available-for-sale; or (e) other liabilities. Financial assets and liabilities held-for-trading are measured at fair value with gains and losses recognized in net income. Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized in comprehensive income. Accumulated other comprehensive income is reported as a separate component of shareholder's equity. Embedded derivatives are accounted for as separate financial instruments and classified in accordance with the above-noted classifications. Investment

Saskatchewan Government Growth Fund V (1997) Ltd.
Notes to Financial Statements (continued)
December 31, 2008

companies are exempt from these accounting policies with respect to investments and are permitted under Accounting Guideline 18 of the Canadian Institute of Chartered Accountants ("CICA") to measure and report investments at fair value.

The Fund has designated its cash and accounts receivable as held-for-trading, which is measured at fair value. Accounts payable, investor Notes and other liabilities are classified as other financial liabilities which are measured at amortized cost. The Fund has no embedded derivatives that need to be separately valued. Investments are measured and reported at their fair value.

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may vary from the current estimates. These estimates are reviewed quarterly and adjustments are reported in the Statement of Operations and Comprehensive Income (Loss) in the period in which they become known. The primary measurement uncertainty which may affect the reported amounts relates to the determination of fair values of other investments as described in the following pages.

Revenue recognition

Income from debt investments ("loans") is recognized as earned except if the investment is impaired. A loan is considered to be impaired if, as a result of deterioration in credit quality, there is no longer reasonable assurance of the timely collection of the full amount of principal and interest. Any loan on which contractual payments are in arrears for 90 days or more is usually assumed to be impaired. Other factors that are considered in determining whether a loan is impaired are the overall credit quality of the borrower and the fair value of the underlying security. When a loan becomes impaired, recognition of interest income ceases. Income from equity investments is recognized when received.

The change in fair value of other investments during the year is included in the Statement of Operations and Comprehensive Income (Loss). Fair values for other debt investments are determined by calculating the present value of the remaining payments under the loans. The discount rate used is based on the expected return at the date of the financial statements for a loan to an investee with similar risk characteristics. The discount rate is comprised of a base risk-free rate based on a Government of Canada bond with equivalent duration, a credit risk premium based on publicly-traded debt with a BBB credit rating, and an additional credit risk and liquidity premium based on the circumstances of the specific investee.

Fair values for other equity investments are determined by management on the basis of the expected realizable value of the investments as at the date of the financial statements if they were disposed of in an orderly manner over a reasonable period of time, discounted at a discount rate which is appropriate at the date of the financial statements to investments in

Saskatchewan Government Growth Fund V (1997) Ltd.
Notes to Financial Statements (continued)
December 31, 2008

similar companies. There is no active secondary market for many investments which are not publicly-traded, and there is considerable uncertainty and a potentially broad range of outcomes with respect to the future cash flows from these investments. Valuations of such investments are subject to a number of assumptions and uncertainties that may cause actual values realized on disposal to differ materially from the fair value estimated at any particular time.

Future accounting policy changes

In February, 2008 the Canadian Accounting Standards Board confirmed that publicly accountable enterprises, including the Fund, will be required to adopt IFRS in place of Canadian Generally Accepted Accounting Principles (GAAP) for interim and annual reporting in fiscal years beginning on or after January 1, 2011, including comparative figures. The Fund's activities will cease when all investments have been divested. If the Fund is wound up prior to 2011, no IFRS conversion will be required. If, during 2009, it appears unlikely that the Fund will be wound up prior to 2011, then the Fund will commence an IFRS conversion project including initiating the development of a high level IFRS implementation plan and preparation of a detailed review of major differences between current Canadian GAAP and IFRS.

At this time the impact on the Fund's future financial position and results of operations is not reasonably determinable. However, based on the analysis to date the most significant area of difference relates to financial statement disclosures. As part of the IFRS implementation, the Fund will make changes to certain processes and systems before 2010 to ensure transactions are recorded in accordance with IFRS for comparative reporting purposes on the required implementation.

3. Changes in accounting policies

Capital disclosures

Effective January 1, 2008, the Fund adopted the accounting standard Capital Disclosures contained in CICA Handbook Section 1535 in accordance with the transitional provisions of the section. The new standard requires disclosure of information related to the objectives, policies and processes for managing capital, and particularly whether externally imposed capital requirements have been complied with. The adoption of Section 1535 had no material impact on the financial statements.

Financial instruments disclosures and presentation

On January 1, 2008, the Fund adopted CICA Handbook Sections 3862, "Financial Instruments – Disclosures" and 3863, "Financial Instruments – Presentation". These Sections replace Section 3861, "Financial Instruments – Presentation and Disclosure". Section 3862 increases the disclosure requirements for financial instruments, the risks associated with them and how those risks are managed. Section 3863 establishes the standards for presentation of financial instruments. The adoption of these accounting standards had no material impact on the Fund's financial statements.

FINANCIAL STATEMENTS

Saskatchewan Government Growth Fund V (1997) Ltd. Notes to Financial Statements (continued) December 31, 2008

4. Provisions of the IIP

70% investment requirement

The terms of the IIP require that at least 70% of each subscription amount be invested in eligible businesses no later than nine months from receipt of the full subscription amount. As at December 31, 2004, all full subscription amounts have been invested in eligible businesses in accordance with the terms of the IIP.

Minimum holding period and maturity of the Notes

A Note is issued to evidence receipt of the full subscription amount on the date that at least 70% of the subscription amount has been invested in eligible businesses. Each Note is scheduled to mature five years from such date, provided the Fund maintains at least 70% of the Note continuously invested in the active business operations of eligible businesses for five years following the issuance date. The IIP contains provisions which require that the maturity date of a Note be extended if, and for such period that, a minimum of 70% of the Note amount ceases to be invested in the active business operations of eligible businesses.

If the subscription amount had not been at least 70% invested in eligible businesses within nine months of receipt, then, for the period from nine months after receipt until a minimum of 70% of the subscription amount had been initially invested in eligible businesses, the investor received an additional payment as compensation for the extension of the maturity date of their Note.

5. Other investments

	2008	2007
Debt instruments	\$ 1,605,066	\$ 3,040,744
Adjustment to fair value	(1,175,066)	(1,170,503)
Carrying value	\$ 430,000	\$ 1,870,241

Included in investments is \$1,605,066 (2007 - \$1,605,066) of impaired investments upon which income is not accrued. During the year \$17,052 (2007 - \$12,765) of investments and costs have been written off.

FINANCIAL STATEMENTS

**Saskatchewan Government Growth Fund V (1997) Ltd.
Notes to Financial Statements (continued)
December 31, 2008**

During the year, investments decreased as follows:

	2008	2007
Balance, beginning of year	\$ 1,870,241	\$ 2,606,264
New investments	17,052	12,765
Book value of divestments	(1,435,678)	(726,109)
Investments and costs written off	(17,052)	(12,765)
Net change in fair value	(4,563)	(9,914)
Balance, end of year	\$ 430,000	\$ 1,870,241

Debt instruments have interest rates ranging from 9% to 13% due on demand.

6. Commissions payable

According to the terms of marketing agreements entered into by the Fund, a commission is payable to the independent marketing agents selling the Notes upon receipt by the Fund of the subscription deposit and all required documentation. The commission is subject to a holdback pending issuance of the investor's immigrant visa. Commissions paid or payable on subscriptions received have been deferred and amortized.

7. Investor notes

Investor notes represent the Notes issued to investors of the Fund. The Notes help to satisfy a portion of investors' visa requirements under the IIP. Interest to the maturity date of Notes is accrued at an annual rate between a minimum of 1.50% and a maximum of 3.50% from the date of Note issuance until maturity. The rate is determined at the time of subscription deposit and is calculated as 3.60% less than the then current yield on a benchmark Government of Canada bond. Interest is paid annually on December 31 until maturity and at maturity. The balance at December 31 is comprised of Notes with interest rates as follows:

2008			2007	
	Number	\$	Number	\$
1.50%	96	2,400,000	96	4,425,000
1.75%	2	50,000	2	50,000
1.95%	1	25,000	1	25,000
2.00%	2	50,000	2	50,000
2.05%	1	25,000	1	25,000
2.20%	1	25,000	1	25,000
2.40%	2	50,000	2	50,000
2.45%	2	50,000	2	50,000
2.60%	3	75,000	3	75,000
	110	2,750,000	110	4,775,000

**Saskatchewan Government Growth Fund V (1997) Ltd.
Notes to Financial Statements (continued)
December 31, 2008**

The balance is comprised of 110 (2007 – 101) unsecured promissory Notes with a remaining principal balance of \$25,000 and in 2007, nine Notes with a face value of \$250,000.

During 2008, no maturity dates were extended in order to comply with the IIP (note 4).

The Notes are subordinate to all other liabilities of the Fund and repayment is dependent on the proceeds on liquidation of investments and other available liquidity in excess of other liabilities. The Notes are irrevocable, except in the case that a visa is denied.

As a result of differences in the timing of proceeds from investments and scheduled maturities of Notes, beginning in 2004, the Fund set payments on each Note at its maturity at \$190,000. In 2005, this amount was increased to \$225,000. As a result of investment losses, it is unlikely that the Fund will be able to repay the full principal amount of Notes. If the assumptions underlying current forecasts prove to be correct, payment of some additional amounts may be possible in 2009.

8. Share capital

The authorized common share capital of the Fund at December 31 is:

Class A common shares - an unlimited number of voting common shares. Holders of these shares are not entitled to receive dividends.

Class B common shares - an unlimited number of voting common shares. Holders of these common shares are entitled to receive dividends.

The issued common share capital at December 31 is:

	2008	2007
1,000 Class A common shares	\$ 1,000	\$ 1,000

9. Financial risk management

The Fund's primary business was the raising of capital from immigrant investors and placing these funds in new and expanding Saskatchewan businesses. This investment activity entails exposure to market risk, including currency, interest rate and other pricing risks, credit risk, liquidity risk and capital risk. These risk factors may impact upon the Fund's ability to repay its Notes at maturity. These risk factors are described below.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. Currency risk is the risk that future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. While the Fund invests only in Canadian-dollar denominated investments, thereby matching

Saskatchewan Government Growth Fund V (1997) Ltd.
Notes to Financial Statements (continued)
December 31, 2008

the currency of its Notes, investee companies may be exposed to fluctuations in currency rates because of sales denominated in foreign currencies. Interest rate risk is the risk that the Fund's earnings will be affected by fluctuations in interest rates. Other price risk includes other factors that affect market prices, other than currency and interest risk. This may include the ability of an investee company to profitably distribute its products. Most of the companies in which the Fund invests are dependent upon a single product or industry. The Fund manages this risk through careful due diligence prior to committing funds to the investment and by diversifying its investments across various industry sectors. The fund has no investments in equity instruments.

Credit risk

Credit risk is the risk that a counter party will fail to discharge its obligations. Concentration of credit exposure may arise given that the Fund restricts its investments to businesses operating in Saskatchewan and therefore all investments are subject to a similar general economic environment. The Fund conducts thorough due diligence prior to committing to an investment and actively monitors the financial health of its investees on an on-going basis. The maximum exposure to credit risk is equivalent to the aggregate of balances reported in the financial statements as publicly-traded and short-term investments and debt instruments reported within other investments.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in liquidating its investments at the time it is required to repay its Notes. Due to the nature of some of the Fund's investments, the timing of cash flows from its investments may not exactly match the payments owing under the Fund's Notes. The Fund carefully monitors the duration of its investments. However, timing differences may require the Fund to reduce or delay the payments owing on Notes at maturity.

Capital risk and disclosure

Capital risk is the risk that the Fund will not have access to capital to finance its operations. The Fund has no sources of capital from which to draw on in the event that the proceeds of investments are insufficient to repay Notes. The Fund is not subject to externally imposed capital requirements.

Fair value – investor notes

No secondary market for the Notes exists. Due to the unique features associated with the Notes, the calculation of a fair value with appropriate reliability is impractical. The risk factors that affect the fair value of investments, as described above, also affect the fair value of investor Notes. Repayment of these Notes at maturity is dependent upon the value and liquidity of investments at that time.

FINANCIAL STATEMENTS

Saskatchewan Government Growth Fund V (1997) Ltd.
Notes to Financial Statements (continued)
December 31, 2008**10. Administration**

Under the terms of a management agreement between the Fund and Saskatchewan Government Growth Fund Management Corporation ("SGGF Management Corporation"), SGGF Management Corporation administers the assets of the Fund with the assistance of a manager that performs fund administration and investment management together with several subadvisors. SGGF Management Corporation does not guarantee the financial performance of the Fund. All services provided to the Fund are charged on a fee for service basis. The costs billed to the Fund by SGGF Management Corporation are as follows:

	2008	2007
Manager's fees	\$ 36,943	\$ 62,460
General administration	759	1,249
Directors' fees and expenses	1,586	5,688
Legal and professional	11,502	11,226
	\$ 50,790	\$ 80,623

11. Net change in non-cash balances related to operations

	2008	2007
Accounts receivable and accrued income	\$ 5,468	\$ 2,769
Accounts payable and accrued liabilities	1,785	(20,445)
	\$ 7,253	\$ (17,676)

12. Income taxes

A provincial Crown corporation, SGGF Management Corporation, owns all of the issued shares of the Fund. Therefore, the Fund is exempt from income taxes.

13. Related party transactions

Included in these financial statements are amounts resulting from transactions with SGGF Management Corporation pursuant to a management agreement referred to in note 10. Routine operating transactions with related parties are recorded at agreed upon exchange amounts and settled under normal trade terms. Total fees charged to the Fund by SGGF Management Corporation amounted to \$50,790 (2007 - \$80,623). Total fees payable to SGGF Management Corporation at December 31, 2008, and included in the above, are \$7,005 (2007 - \$5,220).
